ADMIRAL'S LOG STARDATE 9307.01

"There is a theory which states that if anyone discovers what the universe is for and why it is here, it will instantly disappear and be replaced by something even more bizarre and inexplicable. There is another theory which states that has already happened."

--Douglas Adams

My, what changes our infant six-year-old station has experienced since last we met. The seeds of aspiration we planted in hopes for FMinization are yielding fruit. To quickly refresh you on an otherwise lengthy backstory, KTSB Student Radio and Austin Co-Op Radio ("KÖÖP") had been competing for the last public FM frequency in Austin (91.7). But alas, with competition turned cooperation (pardon the pun), it seems an agreement to share the frequency has been reached that everyone finds palatable--even the ÜT System Board of Regents. A contract has been drawn up, signed and will be approved by the FCC shortly. **This means FM!!** All we do now is wait for the green light from the folks in Washington to begin constructing our 197-ft. tower. We expect that to happen within the month, so keep your fingers crossed. Austin should be turned on its ear sometime this fall.

The time share agreement we've worked out with Austin Cö-Op is this: KTSB will be in your face on FM from **7pm - 9am M-F and 10pm - 9am on weekends**. For those addicts who need their KTSB 24-7, we'll still be on **91.7 cable FM around the clock**. So never fear - your little deconstructionist radio station will always be within ears' reach.

Now, with the arrival of the summer solstice, so arrives the Sümmer '93 Prögram Schedule (now in full effect) providing plenty of aural stimuli to keep you hooked. Check out the descriptions of our all-new Specialty Shöws on page 5 to see just what the hell we're talking about. And don't forget about our eclectically designed **Radiöactive Free-form hours**.

If this all smells like one hot fish (i.e. too damned good to be true) and you want to sweat and bleed to further the cause, we'd love to have you. Just come by the station--located behind the Microcomputer Center--and we'll set you up. Until then, the quest for FM continues as do our fetishes for ümlauts and automated voices (three snaps and a swirl for T.E.X.). "Good-bye and göod lück."

FOUR FURTIVE FUZZIES

SO JUST WHAT DO SOME OF THOSE CRYPTIC BLURBS IN THE PROGRAM SCHEDULE'S WHITE BOXES MEAN ANYWAY??

NEWS, SPORTS, AND CAMPUS/COMMUNITY VOICES: Comprehensive news and sports reports, emphasizing local, state, and UT-oriented information--followed by half-hour programs produced by groups from UT and the Austin community which rarely get media attention, discussing current issues of interest to the organization.
ECLECTIC AUDIO SCULPTING: Atmospheric/trance music, multi-source sound-sculpting,

MYSTERY CD THEATRE: Sets of songs picked by our listeners and community members at large.
THE CROSS: Cutting-edge Christian alternative music.
RADIO DRAMA: Radio theater in the great tradition of the earlier days of radio.
SPOKEN WORD: Poetry, speeches, comic performances, etc. by old and obscure artists.
"THE SHOW": An hour of anything can-and-will-happen sports.
FRIDAY NYTE STUPOUR: An upbeat, crazy show designed specifically for those about to go out and party or who are staying home to get wild.
THE SLACKER HALF-HOUR OR SO: A slice-of-life, stream-of-consciousness talk show exploring the personal thoughts, both profound and inane, of college-age persons in our community.
DIFFICULT LISTENING: Experimental/avant-garde music.
FEATURE ARTIST: An hour of a different favorite artist each week.
EARLY'80s: Music from 1980-85, featuring everything from post-punk to synth-pop to outright cheeze.
HARDCORE ("RESCUE 917"): Punk, thrash punk, and popcore type stuff.
THE HO SHOW: Womyn's music, all different types of genres.
DANCE: Whatever moves your body: house, techno, rave, etc.
THE LOCAL SHOW: Nothin' but Austin and Texas musicians.
NEW ZEALAND ("NO PHONES IN DUNEDIN"): The best alternative music from that country next to the Land Down Under.
PACIFICA HIP-HOP: Hip-Hop with all the nasty words left in.
"RADIOACTIVE FREE-FORM MUSIC" means you'll hear all types of music. You'll hear five new and two Texas cuts, plus three musical genres other than rock, per hour during these blocks o' time.

Ah, yes.

You know, I called up TEX (UT's all-purpose voice computer) for the umpteenth time the other week, and the wise old bucket o' circuitry, with that lilting, discombobulated speech impediment of his, *tried to tell me a joke.* " A man walks into a **financial bar**, and orders **one** beers...press **six-nine** to turn to the Dark Side..." What?? Could my life be such a nightmare? Well, I'd about had it with trying to politely deal with the sneering indifference of The Machine, so I went ahead and sent in my FM splitter card (just like the one above), and within days, I was blessed with the means of hearing the only true relief left in Austin radio--KTSB. And henceforth I've checked the Thursday *Daily Texan* for the weekly KTSB information box, not to mention each Tuesday's *Texan* for the KTSB Topless 11 most played artists. And for those of you who can't yet afford cable--just wait until fall when this station begins kicking your teeth in on 91.7 **FM**, baby.

Cable radio has never been more convenient to get than right now, at this moment, as we speak. Just clip out this card, mail it in, and Austin CableVision will send you a splitter kit complete with instructions. You'll be humpin' around with KTSB in no time at all. And get ready for this fall--when we plan take the actual FM airwaves by storm 7pm-9am M-F, 10pm-9am Sat. & Sun. And of course, as always, we'll be 24-7 on cable FM. Join the cool, in-crowd, Heather. Don't be a mega-bitch.
